GFK Pools: Quality, Durability, and Energy Efficiency

Quality and Reliability

We offer high-quality GFK pools manufactured with special gel coatings. The surface of our pools is UV-resistant, durable, smooth, and easy to maintain.

Strength and Flexibility

The use of a vinyl ester resin barrier layer and fiberglass reinforcement during the manufacturing process ensures high density and elasticity of the pool.

Energy Efficiency

Our pools are equipped with a layer of polyurethane foam for effective thermal insulation, which reduces heat loss and maintains a comfortable water temperature.

Comparison of GFK Pool Types:

	Basic	Standard	Premium
Pool Wall Thickness	5 - 6 mm	8 - 10 mm	24 - 26 mm
Warranty	10 Years	10 Years	15 Years
Free Delivery	No	Yes	Yes

* Free delivery within Germany.

For deliveries to other EU countries, the price will be calculated separately.

Each pool is available in 4 colors:

Also available in 3 polymer coating colors to choose from:

PARADISO	Sizes
	8m × 3.5m × 1 - 1.6m

TROPIK	Sizes
	6m × 3.7m × 1.5m
	8.1m × 3.28m × 1,5m

MERSIO CALM	Sizes
	6.1m × 3.7m × 1.5m
	6.2m × 3m × 1.5m
	8.1m × 3.7m × 1.5m

TEMPUS	Sizes
	6.3m × 3m × 1.5m
	8.45m × 3.7m × 1.5m

LUNARES	Sizes
	5.3m × 3m × 1.5m
	6m × 3m × 1.5m
	7m × 3.2m × 1.5m
	8m × 3.2m × 1.5m
	8.5m × 3.7m × 1.5m
	9m × 3.2m × 1.5m
	10m × 3.2m × 1.5m
	10.3m × 3.7m × 1.5m

HARMONIA	Sizes
	7.4m × 3.5m × 1.5m

ORION	Sizes
	8m × 3m × 1,5m

CALMUS	Sizes
	5.2m × 3m × 1.5m

AQUA DYNAMO	Sizes
	6.2m × 3.2m × 1.5m
	6.5m × 3.7m × 1.5m
	8.2m × 3.2m × 1.5m
	8.5m × 3.7m × 1.5m

AQUABLUÉ	Sizes
	5.2m × 3m × 1.5m
	6m × 2.7m × 1.5m
	6m × 3m × 1.5m
	7m × 3m × 1.5m
	8m × 3m × 1.5m

SPAZIO	Sizes
	6.5m × 3.07m × 1.5m

LAGUNA	Sizes
	5m × 2.7m × 1.5m

NOVUS	Sizes
	5.3m × 2.7m × 1.5m
	5.3m × 3.2m × 1.5m
	6m × 2.7m × 1.5m
	6.3m × 3.2m × 1.5m
	7.3m × 3.2m × 1.5m

MIRAGE	Sizes
	6m × 3m × 1.5m
	6.4m × 3.5m × 1.5m
	8.4m × 3.6m × 1.5m

TOSCANA	Sizes
	6.45m × 3.7m × 1.5m
	8.45m × 3.7m × 1.5m

Freestanding Pools: Elegance, Comfort, and Easy Installation

Easy Installation

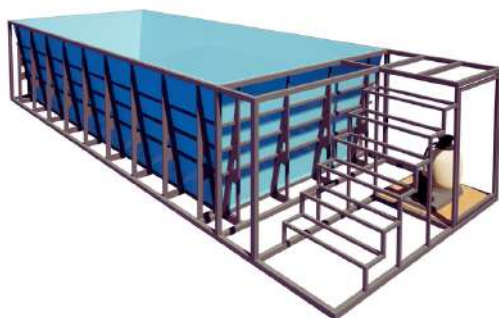

Our freestanding pools do not require digging a pit and are installed on a foundation. This is the ideal solution for anyone looking to avoid construction work and unnecessary hassle.

Complete Equipment

Your pool comes with lighting, skimmer, jets, PVC piping, and a Hayward filtration system for easy handling and crystal-clear water.

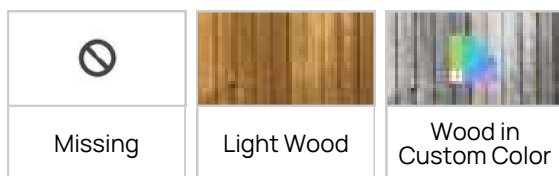

Reliability and Quality

All our pools are made from high-quality materials that guarantee durability and reliability. The design focuses on maximum comfort and aesthetic appeal.

* We offer freestanding pools that can be customized with additional equipment, such as a heat pump, counter-current system, or automatic disinfection system, according to your preferences. Furthermore, we are ready to realize bespoke projects tailored to your needs.

Options for Cladding the Freestanding Pool:

The pool shape is available in 4 colors:

Our professionals install the desired equipment, commission the freestanding pool, and provide maintenance advice.

FREESTANDING POOL IN AQUABLU SHAP	Frame Size and Shape Size
	7.02m × 2.75m × 1.605m Shape: 6m × 2.7m × 1.5m
FREESTANDING POOL IN NOVUS SHAP	Frame Size and Shape Size
	7.02m × 2.75m × 1.605m Shape: 6m × 2.7m × 1.5m
FREESTANDING POOL WITH ARCTERRA ENCLOSURE	Frame Size and Shape Size
	8.049m × 3.97m × 1.581m Shape: 6m × 2.7m × 1.5m
FREESTANDING POOL WITH ARCUS ENCLOSURE	Frame Size and Shape Size
	8.049m × 3.97m × 1.581m Shape: 6m × 2.7m × 1.5m

Premium Pool Enclosures: Reliability, Stability, and Durability

High-Quality Materials

Our roof structures are made from premium 6063 aluminum. This material is ideal for anodizing and subsequent powder coating, giving it maximum corrosion and impact resistance.

Reliability and Stability

6063-grade aluminum profiles are distinguished by complex geometry and high chemical resistance, giving them exceptional strength. The profile thickness of our roofs is 2.0 mm and reaches up to 5.0 mm at connection points, ensuring the durability and reliability of the structure.

Stability and Durability

Our systems are distinguished by the fact that all load-bearing profiles have additional internal partitions for stabilization. This makes our products significantly more stable and durable compared to similar systems that use less robust profiles.

Precision:

When ordering a pool along with an enclosure, the delivery costs for the enclosure are included in the pool's delivery costs.

Pool Enclosure Sizes:

In our range, you will find all standard sizes of pool enclosures, and we can also customize the enclosure to fit your existing pool.

Pool Terraces: Discover Comfort and Functionality

Reliable Materials

Our sliding pool decks are made from high-quality, anodized aluminum, ensuring long-lasting durability and high corrosion resistance. All connection and fastening elements are made of stainless steel for added reliability.

High Load Capacity

Our sliding pool decks are extremely sturdy and can support heavy loads, allowing you to easily place furniture and other equipment on them. The structure is designed to withstand up to 150 kg/m², making it exceptionally stable and reliable.

Easy Operation

Our sliding pool decks move effortlessly on rails, allowing you to open or close your pool quickly and easily. They also protect your pool from debris, UV radiation, and accidental falls, while providing additional space for relaxation.

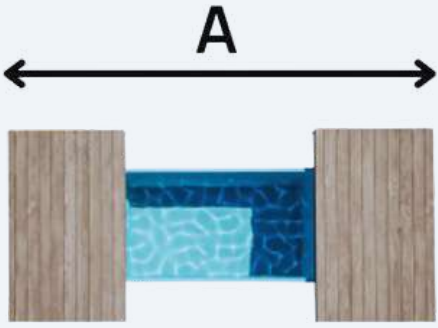

Precision:

Please note that the pool terrace does not include cladding such as parquet boards.

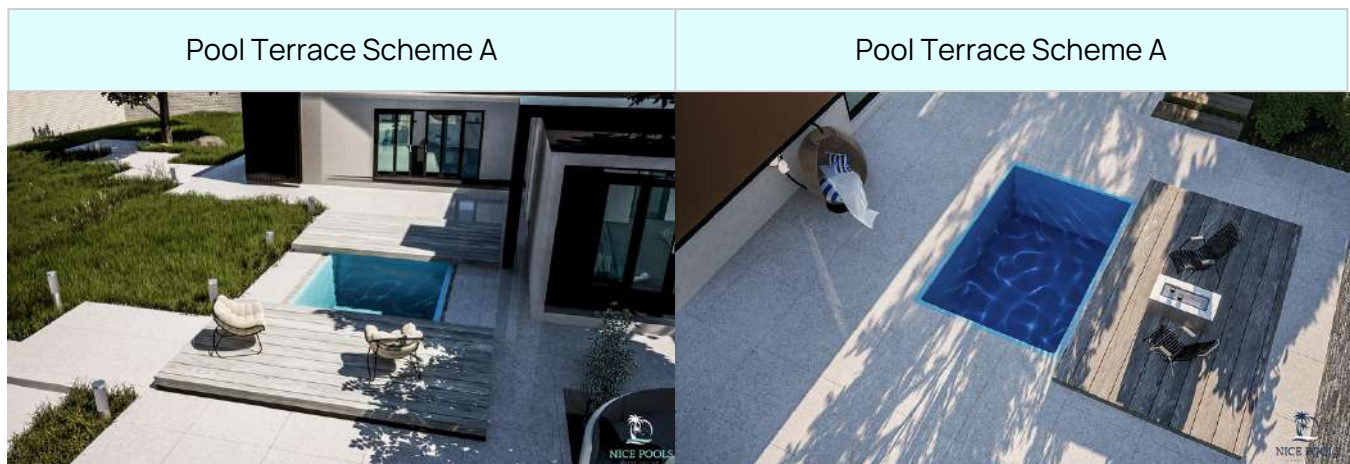

Delivery Information:

When ordering a pool along with a pool terrace, the delivery costs for the terrace are included in the pool's delivery costs.

	Length	5.5 - 8.9m
	Width	3.5m - 4m
	Height	0.14m
	Profile Material	Aluminium
	Strength	150 kg/m ²

	Length	8m
	Width	4m
	Height	0.14m

Carports: Durable and Modern Shelters for Your Car

Reliable Protection

Carports offer a practical solution to protect your vehicle from the elements year-round. Made from high-quality materials, they provide long-lasting protection.

Design and Stability

Our carport structures are distinguished by high stability and modern design. They provide ample space for your vehicle and other equipment, combining aesthetics with functionality.

Custom Solutions

We offer a wide range of components, sizes, and materials, allowing you to choose the perfect solution for your needs. Our products can be easily adapted to all requirements, ensuring reliability and longevity.

The roof covering is made of special trapezoidal sheet metal (T-35) with an anthracite coating (RAL 7016). The roof structure is crafted from profile steel (100x100x2 mm) and welded with a frame on the front and sides, ensuring high stability and durability.

The back side is equipped with a profile (250 x 100 x 100 mm) and additional reinforcement (20 x 100 x 2 mm). Water from the roof is drained through a plastic pipe integrated into the post, allowing connection to the sewage system.

Perfect Equipment for Your Pool

Our range includes everything you need for your pool: jets, skimmers, underwater lighting, filters, heat pumps, counter-current systems, and technical tanks. All products are made from high-quality materials to ensure durability and efficiency.

We are happy to assist you in selecting the optimal equipment that best suits your needs, so you can enjoy your pool with maximum comfort and safety.

Precision:

Pool equipment is only available when ordering a pool and cannot be purchased separately.

Water Filters for the Pool

We offer three types of filters: Hayward Pro Top (6 m³/h), Hayward Pro Top (10 m³/h), and the Hayward Star Clear Cartridge Filter (5.7 m³/h). Hayward Pro Top are sand filters for reliable water purification. The Hayward Star Clear cartridge filter is ideal for smaller pools. All filters ensure clean water and easy maintenance.

Heat Pumps for the Pool

Two types of heat pumps: Hayward Powerline Inverter 8 kW and 11 kW. These inverter heat pumps provide efficient and cost-effective water heating, ensuring a comfortable water temperature even at low outside temperatures. They are also highly energy-efficient, helping to reduce electricity costs.

Pool Disinfection

For pool disinfection, we offer: Hayward AquaRite LTO + pH Set + RX Set for automatic chemical dosing, the Hayward SharkVac XL robot for cleaning the pool floor and walls, and the Wybotics Osprey 700 pool cleaner, a powerful robot for thorough cleaning. These systems ensure clean and safe pool water with minimal effort.

Counter-Current Systems for the Pool

We offer three models of counter-current systems: STP-2200, STP-3000, and STP-4000. They generate a powerful water flow for swimming in place, training muscles, and improving endurance. Each model has different power levels, allowing you to choose the optimal one for your needs. This is an excellent way to improve your swimming technique and enjoy your pool.

Behälter für Poolausrüstung

Equipment tanks are chambers where all necessary equipment is housed. They are available in two sizes: 147x116x102 cm and 153x127x103 cm, depending on your needs. The tanks can be factory-equipped, allowing for easy and quick installation. Made from durable plastic, they provide reliable protection for your equipment.

Grundausstattung für den Pool

The basic equipment includes jets, a skimmer, and lighting. The jets provide water circulation and a massage effect. The skimmer collects surface debris, keeping the water clean. The LED lighting enhances safety and comfort in the evening hours.
